SKILLS

UI/UX Design | Product Design | CRO Expert | Figma | Wireframing | Prototyping | User Journeys | Design Systems | UX Research | AI-Assisted Development | Interaction Design | Responsive Design | AI Prototyping | Claude | Vercel | GitHub | AIDDLC

WORK EXPERIENCE

Senior Consultant – UX/UI Designer

KPMG India

Leading enterprise AI product design and strategy.

02/2025 - Present | Mumbai, India

Accomplishments / Tasks

- Lead end-to-end product design across 5+ enterprise client engagements, driving discovery workshops, UX strategy, and stakeholder alignment across three concurrent 0-to-1 initiatives.
- Partner with client leadership, engineering teams, and end users to translate complex business problems into scalable enterprise product experiences for platforms used by 1,000+ employees.

UX/UI Designer

The Real

Product Design, AI Experiences & Design Systems

03/2023 - 12/2024 | New York, US (WFH)

Accomplishments / Tasks

- Led product design across AI, communication, referral, and document-management initiatives supporting 5,000+ real estate professionals nationwide.
- Collaborated with product managers, engineers, and researchers to improve feature adoption and streamline workflows, reducing task completion time by approximately 20%.

UX/UI Designer

Tech9

UX Research, End-to-End Product Design & Client Projects

11/2022 - 02/2023 | Pune, India (WFH)

Accomplishments / Tasks

- Owned end-to-end design delivery across 4+ concurrent client engagements, balancing business objectives, engineering feasibility, and user needs.
- Built reusable design systems and scalable UI component libraries, reducing engineering implementation time by an estimated 30% across 6+ products.

WORK EXPERIENCE

UI/UX Designer

Uplers

Designing responsive web experiences for clients.

05/2021 - 03/2022

Accomplishments / Tasks

- Designed responsive web platforms from concept through launch across 10+ client engagements, collaborating with product managers, developers, and business stakeholders.
- Improved user engagement and simplified core user journeys through research-driven design decisions, contributing to an estimated 15–20% improvement in usability metrics.

Product Designer

Uplers - Knit

Improving product workflows through user research.

05/2021 - 08/2021 | Mumbai, India (WFH)

Accomplishments / Tasks

- Partnered directly with the CTO to redesign mission-critical workflows, establish a company-wide design system, and improve operational efficiency by an estimated 20%.
- Led discovery sessions and interviews with 20+ users, using iterative usability validation to simplify complex workflows and accelerate product delivery.

PROJECTS

Maruti Suzuki - AI Powerhouse Platform

KPMG Project

Unified enterprise AI discovery and accessibility

2025

Tasks / Achievements

- Defined product strategy, UX frameworks, and interaction models for a unified enterprise AI ecosystem.
- Improved feature discoverability and reduced context switching across teams.

Nayara Energy – Continuous Improvement Platform

Streamlining innovation and operational improvement workflows

2025

Applied Lean UX methodology to streamline idea submission and review.

- Applied Lean UX methodology to streamline idea submission and review.
- Created structured innovation workflows supporting plant operations.

Maruti Suzuki - Enterprise AI Assistant

Simplifying operations through intelligent AI assistance

2025

Tasks / Achievements

- Built the medical education web app using AI-assisted development workflows, leveraging Claude, GitHub, and Vercel.
- Designed the complete mobile app experience in Figma, focusing on intuitive navigation, learning modules, and student assessments.
- Applied user-centered design principles to create accessible learning experiences for medical students across digital platforms.

PROJECTS

Maruti Suzuki – Enterprise Q&A Platform

Centralised automotive testing knowledge and documentation

2026

Tasks / Achievements

- Simplifying engine and component testing knowledge.
- Centralised knowledge platform for automotive QA.

Vedanta - AI-Powered Procurement Platform

AI-driven procurement analysis and decision support

2025

Tasks / Achievements

- Intelligent order analysis and procurement recommendations.
- AI-powered purchasing insights and decision intelligence.

PASSION PROJECTS

AI-Powered Learning Management

2025

Tasks

- Designed and developed a complete AI-assisted LMS while self-teaching HTML, CSS, and React. built a scalable dashboard with structured learning paths, progress tracking, and engagement-focused UX.

Gen Z Learning Platform

2024

Tasks

- Designed and built a modern learning platform inspiredby experience running a design academy, emphasizing AI-first learning, mobile-firstinteractions, and conversion-focused UX.

SOFT SKILLS

Problem Solving | User-Centered Thinking | Critical Thinking | Research & Analysis | Cross-Functional Collaboration | Client Collaboration | Attention to Detail | Adaptability | Creative Thinking

CERTIFICATES

UI/UX Designing Professional Certification

EDIT Institute

Usability testing and UI

04/2024

EDUCATION

Bachelor of Engineering – Computer Engineering
A. C. Patil College of Engineering, Navi Mumbai
2017 - 2020 | Navi Mumbai, India

Diploma in Computer Engineering
Bharati Vidyapeeth College of Engineering, Navi Mumbai
2014 - 2017 | Navi Mumbai, India
